

Ronabond PU Cleaner

Non Flammable Cleaner for Ronabond PU Products

Description

Ronabond PU Cleaner is a cleaning solution for use with Ronabond polyurethane resins. Ronabond PU Cleaner prevents the formation of hard deposits around seals and moving parts, removes moisture and lubricates moving parts.

Characteristics

-  Biodegradeable.
-  Lubricates equipment.
-  Removes moisture from the pump internals.
-  Prevents the formation of hard deposits around seals.
-  Makes cleaning and maintenance easier.

Specification Clause

The Cleaner for Polyurethane Grouts shall be Ronabond PU Cleaner by Ronacrete (Far East) Limited, tel. (852) 2865 5872 used in accordance with the manufacturer's instructions.

Packaging

Ronabond PU Cleaner is supplied in 20 and 200 kg drums.

Application (*Please also refer to the Method Statement and MSDS)

Pump Cleaner through the pump and any associated equipment and hoses.

Continue pumping until Cleaner appears clean and contamination free. It is advisable to circulate the cleaner for a few minutes to ensure any solid contamination is dislodged. The presence of a milky white tint to the cleaner indicates that water is present in the pump. Cleaner in this condition must be discarded until the white tint disappears.

When the cleaner exits the pump in a contamination free state shut off all exit taps and pressurise the pump to the maximum possible and hold that pressure for about 30 seconds. Release the pressure and repeat the process twice more before removing the excess cleaner from the pump.

This process should be repeated before and after pumping polyurethane resins.

Storage

- Store above 10°C.
- Keep containers dry and closed when not in use.
- Shelf life 12 months in unopened containers.

Safety

- Avoid contact with skin & eyes.
- Wear safety glasses, gloves and overalls.
- Observe the health & safety data sheets.

Technical Service and Support

Ronacrete provide free technical advice and support during design and installation of all systems for flooring, concrete repair, bonding, bedding and waterproofing. If you need any further information including method statement or additional technical data sheet, contact the Ronacrete Technical Department on (852) 2866 4365 or visit our web site www.ronacrete.com.hk.

Guarantee
